**Q. 2.** Read the following passage carefully and answer the questions given below : **5**

The measurement of time by the movements of the heavenly bodies was probably the beginning of astronomy, the very word measure, like the word month, goes back apparently to a root denoting the moon. Men measured time by moons long before they counted it by years, the sun, like

**(6)**

the father was comparatively late discovery. Even today Easter is reckoned according to the phases of the moon. The polynessions has a calendar of thirteen months, regulated by the moon, when their Lunar year diverged too flagrantly from the procession of the seasons they dropped a moon and the balance was restored. But such same uses of the heavens were exceptional astrology anteverted astronomy, simple souls are more interested in telling future than in telling time.

Questions :

(a) Give suitable title to the passage.

(b) What was the beginning of astronomy ?

(c) How did man measure time ?

(d) Change the voice :

(i) Men measured time by moons.

(ii) Easter is reckoned according to the phases of the moon.
