

FEEDBACK ANALYSIS REPORT

SESSION 2023-24

Prepared By

“Internal Quality Assurance Cell”

Govt. Rani Durgawati College Wadrafnagar

Distt – Balrampur-Ramanujganj (C.G.)

Govt. Rani Durgawati College Wadrafnagar has been constantly involved in enhancing the academic growth of students with regards to teaching and learning process. Every year before the completion of the annual examination an offline/online feedback is taken to know the areas of improvement and the same is implemented as and when required. A student satisfaction survey can help educators identify areas of the curriculum, teaching methods, and resources that need improvement. The survey gives opportunity to the students to provide feedback on faculty, academic and extra-curricular facilities, transportation, and the overall milieu of the college.

The feedbacks taken from students are used to assess the level of their satisfaction, grievances and appreciation in relation to academic and nonacademic services which are rendered by the institution to the student community. On the basis of such feedback the institution can re-orient its approaches to cater to the optimum benefits of the students within its command. The offline mode of collection of feedback is preferred to online mode due to the fact that there are a significant number of students who reside in remote part of the city or in suburban areas where cellular network and WiFi do not function reliably. Under the mentioned circumstance use of internet becomes a hurdle, as many students prefer to go through such kind of surveys with ample time in their hand at the comfort of their homes, the busy college hours do not provide them the opportunity to do proper justice to such surveys, hence, an offline questionnaire method has been in practice in the institution to get a thoughtful perspective of the students about the institution. The questionnaire is distributed amongst the seconde and final year students with the aim to receive feedback from students who have spent the longest time period in the college in comparison to other year/students, the aim is also to

get the feedback from the senior most group of students keeping in mind that they have developed a constructive relationship with the college and are able to provide a more seasoned insight of their experiences as a student of this institution

The latest survey has been done amongst the batch of the 2nd and 3rd Year students, there had been a total of 992 respondents, out of which 713 had filled the questionnaire. A total of 20 questions had been given to the students for feedback with the objective to cover the following mentioned areas—

- I. Infrastructure and other related facilities**
- II. Standard and quality of student support services.**
- III. Efficacy of communication.**
- IV. Adequacy, accessibility and quality of teaching-learning resources.**
- V. Academic staff performance (quality of teaching) .**
- VI. Assessment methods and their effectiveness.**
- VII. Overall students' satisfaction level.**
- VIII. To identify and address any gap to create an environment for the holistic growth of students of the institution.**

Methodology

In this academic session 2023-24 , for the first time, we have collected online feedback and along with this, offline feedback was also collected from students who did not have mobile phone and problems with internet or wifi. An online google form link and offline questionnaire was distributed amongst the students of the 2nd and 3rd year on 12 Feb, 2024. The survey questionnaires were collected from the students and the result of the survey was tabulated by the Students' Satisfaction Survey Team, the findings of the survey were compiled into a report and submitted to the IQAC.
